CAMILLUS CUTLERY COMPANY

...THE POPULAR PRICED GOOD QUALITY LINE

CAMCO QUALITY

CAMCO pocket knives are made by highly skilled craftsmen in one of the largest and most modern factories in the country.

All blades are made of the best high carbon cutlery steel, electronically hardened and tempered. Each blade is mirror polished on both sides and individually sharpened by hand to a keen, long lasting edge. Blades open and close with a positive "click" yet operate easily. Close tolerances in manufacture insure long life and enduring service.

Great care is taken to maintain the attractive appearance of all CAMCO pocket knives, which insures consumer sales appeal. Uniformity of quality assures consumer satisfaction and re-orders.

CAMCO TURNOVER

Attractive appearance, good quality and popular prices all make CAMCO one of the fastest moving pocket knife lines. Consumer satisfaction of CAMCO quality and appearance means not only many sales but also repeat sales. With the CAMCO line the sales come fast, easily and often.

ONE OF THE OLDEST AND LARGEST MANUFACTURERS OF KNIVES IN AMERICA

CAMCO DISPLAY

Most CAMCO pocket knives come packed on gaily colored attractive sales cards which are your best "silent salesmen". These cards are designed, not only to attract attention and to sell pocket knives but are also designed to be compact. A strong sales message is placed in a minimum of space so that the card will not take up excessive space on counters or shelves.

IMPORTANT-ABOUT POSSIBLE CHANGES IN THIS CATALOG

Due to National Production Authority regulations, it will be necessary for us to manufacture pocket knives without using certain critical materials, particularly nickel silver and brass. This changeover will be gradual as stocks of raw material and finished goods are used up.

Each assortment shipped with substitute material will have a slip in it explaining this change. We reserve the right to fill orders as necessary with merchandise using this substitute material.

When substitute material is used, numbers will be changed as follows:

Old No.	New No.	Old No.	New No.	Old No.	New No.	Old No.	New No.
196	126	222	262	637	687	292	272
210	250	227	267	637A	688	307	327
213	253	400	410	638	683	308	328
215	255	614	681	640	685	400A	410A
216	256	623	682	291	271	808	828
						642	684

The items not listed above will not be changed in the near future.

The steel in our blades and springs will not be changed in any way. It will be the same top grade, high carbon cutlery steel we have been using for the past several years.
